MEMORANDUM FOR: National Weather Service Directives System (NDS) Customers

FROM: Dr. James E. Hoke
Acting Director, Office of Climate, Water, and Weather Services

SUBJECT: Rescission of NDS Procedural Directive 10-810, Aviation Products

The following document is rescinded from the NDS.

NDS Title: Aviation Products
NDS Number: 10-810
Effective Date: January 10, 2005
Signature Date: December 27, 2004
Certified By: L. Spayd, W/OS2
Approving Authority: D. McCarthy, W/OS

Summary: NWSI 10-810, Aviation Products, describes the products and applications of the domestic aviation products produced by the Aviation Weather Center (AWC), and the Hawaii Meteorological Watch Office (MWO). The products described in NWSI 10-810 were included in the latest update to NWSI 10-811, Enroute Forecasts and Advisories. The two directives were combined because they covered the same topic, and differed only by geographic coverage: domestic versus international.

Continuing to maintain NWSI 10-810 is unnecessary, and would also create a potential procedural conflict if it failed to be an exact copy of NWSI 10-811.
